Re: Issuance of Permit to Construct Phase III Cell
Coble's C&D Landfill, Alamance County, North Carolina
Permit No. 01-05, Doc ID No.6679

Dear Mr. and Mrs. Coble:

Enclosed is the above referenced Permit to Construct Phases 3A and 3B of the expanded area at the Coble's C&D Landfill. Other documents relating to the issuance of the expansion permit are available to view on the Division's web site (www.wastenotnc.org/swhome).

Please review the permit carefully. According to 15A NCAC 13B .0203(d), by beginning construction and receiving waste in the cells, the applicant shall be considered to have accepted the conditions of the permit.

Also, please take note of Attachment 2 Condition 8, which requires a Preconstruction Meeting, and the pre-operative conditions under Condition 21. You may contact me at 919.508.8498 to schedule a pre-construction meeting.

If you have questions about the permit conditions or questions arise during construction, please contact either me at 919-508-8498 or Chris Marriott, Environmental Senior Specialist for the facility, at 336-771-5090.

Thank your for your efforts and cooperation in this matter.

Sincerely,

Geoffrey H. Little
Environmental Engineer
